

Stage three: Transferring the design

Method A:

- Trace drawing onto acetate with fine black marker
- Use a lightbox or window trace design onto light cloth with water soluble pen.

Method B:

- Iron on transfer pens or pencils: good for dark or heavy materials.
- Trace onto heavy tracing paper the design in reverse
- Place trace paper transfer pen side down onto fabric and iron over.

Method C:

- Trace design onto tissue paper
- Adhere tissue paper with design over material, stitch outline and tear away tissue.
